Address: Nuhi Berisha, 66, 10000, Prishtina, Kosovo (Home) |

Address: Dervish Cara, 20, 1000, Skopje, North Macedonia (North Macedonian Address)

ABOUT ME

Motivated and ambitious Computer Science student with strong foundations in software development, web technologies, and problem-solving. Experienced in both technical and real-world environments, including election management roles, customer-focused work, and international project collaboration. Winner of the Erasmus+ Elegants Innovation Competition (3rd place), with proven skills in teamwork, research, leadership, and creative solution design.

Previously worked as an Intern at the Tax Administration of Kosovo and served as Co-Founder and CEO of Bleta, a technology-driven company developing digital products and e-commerce brands. Through these roles, gained hands-on experience in public sector operations, taxpayer communication, fieldwork, administrative processes, business development, and full-stack software engineering.

Led the development of key projects within the Bleta ecosystem, including **Blejta.xk** (an online clothing and consumer goods reselling platform) and **"m'duhet ni qisi"** (a gadget-focused e-commerce brand), building practical expertise in branding, digital sales, logistics, and scalable web application development.

Skilled in both frontend and backend development, with hands-on experience building practical and modern applications such as an Expense Tracker web application (React.js & .NET Web API Core) and an E-commerce store (Angular & .NET Web API Core).

Developed additional advanced projects, including:

- **FutureEcho** – an AI-powered journaling application that enables users to interact with a simulated "future self," utilizing long-term memory retrieval and personalized insights. Built with Next.js (App Router), TypeScript, TailwindCSS, PostgreSQL, Prisma, and Google Gemini (with embeddings), and deployed using serverless architecture on Vercel.
- **Blejta.xk Web Application** – a modern full-stack e-commerce platform with a responsive frontend and scalable backend for real-time interactions and data management, built using React, Node.js, Express, and database solutions such as MongoDB/MySQL, deployed on platforms like Render and Vercel.
- **Personal Portfolio Website** – a modern, responsive portfolio built with React and Vite, styled with TailwindCSS, and enhanced with Framer Motion animations, featuring dark/light mode, interactive UI components, and integrated contact functionality.

Strong foundation in software documentation, having prepared multiple Software Engineering, Architecture, and Design documents.

Beyond technical skills, highly interested in management, economics, finance, and marketing, combining analytical thinking with structured documentation and organizational planning. Eager to contribute to multidisciplinary teams, gain real-world experience, and continue developing as both a software professional and future entrepreneur.

Dedicated to continuous learning, improving digital skills, and applying technology to real-life challenges. Known for responsibility, strong communication, teamwork, and the ability to adapt quickly in diverse professional environments.

WORK EXPERIENCE

CEO, CO-FOUNDER & FULL-STACK DEVELOPER — BLETA – SELF-EMPLOYED – 11/09/2025 – 01/04/2026 – PRISHTINA, KOSOVO

Business or Sector: Other service activities | **Department:** Clothing and Reselling |
Link : https://www.linkedin.com/company/bletaco/

Co-founded and led **Bleta**, a technology-driven company focused on building digital products, brands, and web solutions. Served as Chief Executive Officer (CEO) and Lead Developer, defining company vision, strategy, and growth while managing operations, brand development, and partnerships.

Developed and managed two core e-commerce brands under Bleta: **Blejta.xk** (online reselling shop for clothing and consumer goods) and **"m'duhet ni qisi"** (online reselling shop for gadgets and tech-related products).
Led the end-to-end development of company and brand websites, including:

- Designing and implementing modern, responsive user interfaces
- Developing product listings, shopping cart systems, and order management workflows
- Building user authentication and admin dashboard functionalities
- Creating product upload systems and basic analytics for tracking sales and traffic

Oversaw product sourcing, pricing strategies, and market testing through social media channels and direct customer engagement.

Managed business operations including logistics planning, customer communication, packaging processes, and inventory tracking.

Built brand identities from the ground up, including logo design, visual direction, tone of communication, and marketing strategy.

Delivered scalable and functional e-commerce solutions, contributing to the growth and positioning of Bleta's digital ecosystem.

INTERN – TAX ADMINISTRATION OF KOSOVO – 03/11/2025 – 01/05/2026 – PRISHTINA, KOSOVO

Business or Sector: Administrative and support service activities | **Department:** Tax Administration | **Email:** info@atk-ks.org |
Website: https://www.atk-ks.org/en/

Completed a 6-month internship at the Tax Administration of Kosovo, supporting taxpayer compliance and field operations.
Identified and verified registered taxpayers operating within assigned areas, ensuring accuracy and up-to-date records.

Distributed official taxpayer identification stickers at business premises and ensured their proper placement and visibility in accordance with regulations.

Conducted high-volume outbound calls (100+ daily) to inform business owners about sticker collection procedures and compliance requirements.

Communicated directly with taxpayers, providing clear guidance, resolving inquiries, and representing the institution professionally.

Performed fieldwork across Prishtina, combining on-site visits with office-based administrative responsibilities.
Maintained accurate and organized records of contacted businesses, completed distributions, and follow-up activities.

Demonstrated strong time management, reliability, and professionalism while working full-time (08:00–16:00) in a dynamic, high-volume environment.

POLLING STATION COMMISSIONER – CENTRAL ELECTION COMMISSION OF KOSOVO – 10/10/2025 – 29/12/2025 – PRISHTINA, KOSOVO

Business or Sector: Administrative and support service activities | **Email:** infokqz@kqz-ks.org | **Website:** https://kqz-ks.org/

Served as a Polling Station Commissioner at the Central Election Commission of Kosovo during multiple election periods (October–December 2025).

Assisted in the organization and management of polling station operations during election days, ensuring procedures were conducted efficiently.

Verified voter identities and ensured accurate implementation of voter registration procedures in accordance with electoral regulations.

Distributed ballots and provided clear instructions to voters to facilitate a smooth voting process.

Monitored voting activities to ensure fairness, transparency, and full compliance with election laws and guidelines.

Recorded and reported voting data accurately, maintaining attention to detail and procedural integrity.

Maintained order within the polling station and resolved minor issues to support a secure and organized environment.

Collaborated closely with committee members and election officials to ensure an efficient and well-coordinated election process.

DRIVER OF TAXI – SHOFERI IM – 04/07/2025 – 04/08/2025 – PRISHTINA, KOSOVO

Transported passengers safely to their destinations while following all traffic laws and regulations.

Provided excellent customer service by assisting passengers with luggage and ensuring a comfortable ride.

Planned efficient routes using GPS and local knowledge to minimize travel time.

Maintained a clean, well-kept, and roadworthy vehicle at all times.

Handled payments, issued receipts, and managed daily cash balance accurately.

Ensured punctuality by responding quickly to ride requests and managing time effectively.

Assisted passengers with special needs and ensured their safety during boarding and transport.

Monitored vehicle performance and reported any mechanical issues promptly.

EDUCATION AND TRAINING

18/10/2022 – 13/09/2025 Prishtina, Kosovo

UNDERGRADUATE STUDENT University for Business and Technology

Software development: designing, coding, testing, and maintaining complex systems
Algorithms & data structures: efficient problem-solving using optimal data organization
Computer architecture & hardware: understanding low-level system operations
Operating systems: process management, memory, and concurrency control
Mathematical modeling & analysis: calculus, linear algebra, probability, and statistics
Networking & telecommunications: designing and maintaining network systems
Database management: relational modeling, querying, and optimization
Web & mobile development: building front-end, back-end, and mobile applications
Cybersecurity: cryptography, secure system design, and risk assessment
Embedded systems & robotics: integrating hardware with software for intelligent control
Graphics & multimedia: 3D modeling, rendering, and interactive visual systems
Artificial intelligence & machine learning: building predictive and intelligent models
Project management & teamwork: coordinating group projects and delivering results
Technical communication: writing research, documentation, and presenting ideas
Professional ethics & IT law: understanding legal and ethical issues in computing
Research & simulation: modeling systems, running simulations, and analyzing data
Lifelong learning: continuously adapting to new technologies and methodologies

Website https://www.ubt-uni.net/en/ubt-en/ | **Field of study** Computer Science and Engineering | **Final grade** 8.72 |

Level in EQF EQF level 6 | **National classification** 6 | **Type of credits** ECTS | **Number of credits** 162

01/03/2024 – 28/10/2024 Prishtina, Kosovo

3RD PLACE AWARD WINNER Erasmus+

Project Management & Leadership – planned, organized, and coordinated a complete innovation project from concept to presentation.
Team Collaboration – worked effectively within a multidisciplinary international team, sharing responsibilities and solving problems together.
Innovation & Creative Thinking – developed a unique AI-powered solution that improves accessibility for visually impaired individuals.

Research & Analysis – performed detailed research on accessibility, AI technologies, user needs, and cultural inclusion.
Business Planning – created a full business plan including SWOT analysis, value proposition, customer segmentation, revenue model, and cost structure.
Technical Problem-Solving – defined complex technical challenges and proposed realistic AI-based solutions involving audio, tactile feedback, and machine learning.
SWOT & Market Analysis – analyzed strengths, weaknesses, opportunities, threats, and explored market potential for innovative tech products.
Business Model Canvas Development – structured ideas into clear business components: value creation, resources, activities, partners, and customer segments.
Financial Planning – contributed to cost estimation, budgeting, and multi-year financial forecasting for the project.
Communication & Pitching – presented the project idea professionally in written form, demonstrating strong communication and storytelling skills.
User-Centered Design Awareness – understood the needs of visually impaired users and built an inclusive, accessible design approach.
Cross-Cultural Collaboration – worked within an international Erasmus+ environment, adapting to diverse backgrounds and perspectives.
Entrepreneurial Mindset – developed skills in innovation, product development, market strategy, and value creation.

27/05/2025 – 28/05/2025

DIGITAL AND MEDIA EDUCATION TRAINING Democracy Plus

Digital Literacy & Online Tools Proficiency – improved ability to use modern digital platforms for communication, collaboration, and productivity.
Online Safety & Digital Security Awareness – learned essential practices for protecting personal data, preventing cyber threats, and maintaining digital privacy.
Critical Thinking in the Digital Space – strengthened ability to identify misinformation, verify online content, and use reliable digital sources.
Digital Communication Skills – enhanced communication through digital platforms, including professional email etiquette and effective online collaboration.
Use of E-learning Platforms – gained experience working with educational tools such as Google Workspace, Microsoft 365, Learning Management Systems, and interactive teaching tools.
Content Creation & Digital Presentation – developed skills in creating digital content (presentations, visuals, documents) using modern tools.
Collaboration & Teamwork Online – practiced working in groups using digital tools, improving coordination in virtual environments.
Problem-Solving with Technology – learned how to use digital tools to solve practical tasks efficiently.
Digital Citizenship & Ethics – understood responsible online behavior, copyright rules, and ethical use of digital resources.
Basic Project Planning with Digital Tools – used online platforms to plan, organize, and present small projects

04/04/2022 – 27/05/2022 Prishtina, Kosovo

ANDROID STUDIO BEGGINER British College of Sciences (Former PBC Academy)

Basic understanding of Android Studio IDE and its interface.
Creating and managing Android projects and app structure.
Designing simple user interfaces (UI) using XML and layout editors.
Implementing basic app functionality using Java or Kotlin.
Understanding activities, intents, and navigation in Android apps.
Debugging apps and using the Android Emulator for testing.
Working with buttons, text fields, images, and basic user input.
Awareness of app lifecycle and resource management.

Level in EQF EQF level 5 | **National classification** 5 | **Type of credits** ECTS | **Number of credits** 5

LANGUAGE SKILLS

Mother tongue(s): **ALBANIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Java (computer programming) | C# | .Net Web API | pHp | JavaScript | Angular | Javascript (React.js) | SQL | project management | manage time | lead others | Team Leader & Team Work | communication | think critically | participatory decision-making | HTML | public relations | field operations | Administrative Work | communicate by telephone | Attention to Detail

DRIVING LICENCE

Driving Licence: B | 19/10/2022 – 18/10/2032

HOBBIES AND INTERESTS

Social Media Management

I spend part of my free time managing and growing several social media pages. This hobby allows me to explore digital content creation, understand audience engagement, follow online trends, and communicate with different communities. It helps me stay creative, organized, and up-to-date with digital media.

Music

I enjoy writing music lyrics as a personal creative outlet. Through songwriting, I explore storytelling, emotions, and rhythm. This hobby helps me develop imaginative thinking, expressive writing, and a deeper understanding of music and creativity.

Sport

Walking is one of my favorite hobbies. It keeps me active, improves my focus, and gives me time to think and unwind from daily responsibilities.
